Education

• RV Institute of Technology and Management

Bachelor of Engineering, Computer Science and Engineering

2027

CGPA/Percentage: 8.892

Experience & Projects

• BB84 Quantum Messenger

Secure real-time chat application with simulated quantum key distribution

November 2025

- Built a real-time messaging application using Python, Flask, Socket.IO, PostgreSQL, JavaScript, HTML5, and CSS3 with secure user communication workflows.
- Implemented simulated BB84 quantum key distribution, XOR-based message encryption, and eavesdropping detection to demonstrate end-to-end secure chat and quantum cryptography concepts.

• Attendify

Full-stack attendance tracking PWA with geofencing and attendance analytics

2026

- Developed a progressive web application using Node.js, HTML, Tailwind CSS, Clerk Authentication, and Geolocation API for automated college attendance tracking.
- Implemented geofencing-based auto-attendance, subject-wise attendance buffer analysis, what-if scenario simulation, retroactive attendance logging, and JSON, PDF, and CSV export features.

• TheMovie

Movie and TV show discovery platform with authentication and personalized watchlists

October 2025

- Built a full-stack web application using React, Vite, Tailwind CSS, Clerk, OMDb API, and TMDb API for searching and managing movie and TV content.
- Implemented user authentication, watchlist and watched-list management, advanced search and filtering, responsive UI, and multi-API integration for personalized content discovery.

• EventHub

Secure event ticketing and QR-based check-in platform

2026

- Built a full-stack event management and ticketing platform using Next.js, React, PostgreSQL, and server-side validation for organizer, attendee, and staff workflows.
- Implemented event publishing, ticket registration, secure QR ticket generation, payment flow tracking, staff check-in dashboards, duplicate scan prevention, and signed ticket token validation.

• Editorial

Real-time collaborative document workspace inspired by Google Docs

2026

- Developed a collaborative document platform using React, Node.js, PostgreSQL, and a rich text editor for shared writing, reviewing, and document organization workflows.
- Implemented live multi-user editing, shared folders, comments, version history, document search, reusable templates, export flows, and structured workspace management.

• Neo

Voice-controlled AI desktop assistant for automation and information retrieval

February 2025

- Developed a voice-controlled desktop assistant using Python, Tkinter, PyAutoGUI, Requests, Wikipedia API, and OpenWeather API.
- Automated 50+ tasks including system control, web navigation, media playback, file handling, and real-time information retrieval through natural language voice commands.

• College Management System

Role-based school and college management platform

August 2025

- Built a full-stack management system using Python, Flask, SQLAlchemy, PostgreSQL, SQLite, Bootstrap 5, Chart.js, Flask-Login, Flask-Migrate, and Vercel.
- Implemented admin, teacher, and student portals with role-based access control, attendance management, marks entry, fee tracking, timetable scheduling, homework, announcements, and library records.

Technical Skills and Interests

Languages: C, C++, JavaScript, Python, JAVA, HTML5, CSS3

Frameworks & Tools: React.js, Node.js, Flask, Git, GitHub, VS Code, Linux CLI, Vercel

Design & Prototyping: Figma, Stitch, Canva, UI/UX Design

Cloud/Databases: MySQL, MongoDB, PostgreSQL

Certifications: Programming with JavaScript (Meta), React Basics (Meta), Node.js & MongoDB (IBM)

Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Web Development, Computer Networks, OOP, Machine Learning, Cloud Computing, Generative AI, UNIX System Programming

Areas of Interest: Artificial Intelligence, Machine Learning, Web Development, Mobile App Development, Data Science, Data Analytics, CI/CD Pipeline, System Design, Docker

Extra-Curricular Activities

- Contribute to Tolkien Gateway by editing and updating content related to J.R.R. Tolkien's works for accuracy and consistency.
